

# APEX 2420 MOBILE STAGE

The Apex 2420 is the smallest mobile stage in our inventory. This stage is great for many different applications, from small events with limited space to being used as a FOH platform! The Stage size is 24' wide and 20' deep. The stage height can be set from 3'6" to 4'6" with a roof trim height of 12'. This stage also has the same weight ratings as our 3224. We can also package lighting and audio systems with this stage.
