

## Tyler GT<sup>®</sup>

Every now and then, a new idea comes along that revolutionizes an industry. Tyler Truss Systems is proud to introduce the new line of Green Truss (GT<sup>®</sup>) and accessories. Engineered from the ground up, GT<sup>®</sup> Truss is designed with you in mind. Load it up and keep your cases at home. That means less truck weight and less truck space. Once you're there, roll it off the truck and into place. Less setup time and less labor needed.

**Eliminates Fixture Cases**

**Saves Time**

**Reduced Load-in Time  
& Fuel Consumption**

# Tyler GT®

## Reduced Load-in Time & Fuel Consumption

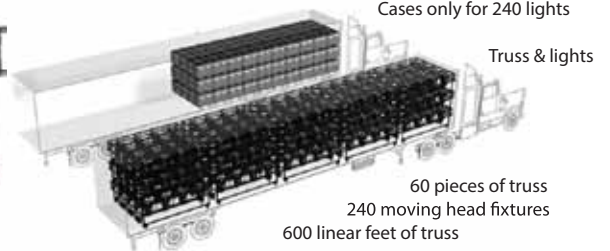

Higher density truck packs mean fewer trucks on the road

## Eliminates Fixture Cases

Tyler GT® protects your fixtures without the need for cases

## Saves Time

Dramatically reduces load-in and load-out time

(Illustrated with Mac 250's)
