QolorPoint Battery Powered LED Uplighter

City Theatrical's QolorPoint battery powered LED Uplighter sets the new standard in temporary wireless event lighting. With its understated elegant design, each QolorPoint unit is equipped with our award winning SHoW DMX radio and is rated for outdoor use (IP65). Its 2000 lumen output will light up medium sized trees or 3 story buildings and its even color mixing, long battery life (10 hrs max output) and variable PWM makes it the most versatile and feature rich portable Uplight available today.

Operation Modes

- DMX – Master/Slave settings, Address settings
- Effect – R'bow 1, R'bow 2, Snap, Warm, Cool, Test (Speed 1-10)
- Static – LEE and Color Correction Presets
- Custom – RGBW 0-255

Settings

- Power Mode – Normal or LongLife
- Brightness Control – 0%-100% (Pre-Set Mode Intensity)
- 5th DMX Channel – On/Off (Channel 5 functions as intensity)
- PWM Freq – 488Hz, 976Hz, 1.9kHz, 3.9kHz
