# Celeb® 201 DMX LED

The Celeb® 201 DMX LED fixture features the cool, energy efficient qualities that lighting professionals have come to expect from Kino Flo. The Celeb boasts new technical innovations that make it an ideal professional image tool: dial-in variable color temperature control, full-range dimming and programmable 2700K to 6500K presets and DMX wireless link capability.

Like the award-winning line of portable Kino Flos, the Celeb 201 reproduces color faithfully, beautifully on HD or film, in the studio or on location. The Celeb's 100 watts of soft, lustrous white light doesn't flicker or shift color temperature when dimmed. Light levels do not change when selecting Kelvin settings. With a Lumen Radio transmitter, the Celeb 201 can operate on DMX wireless. The trim, lightweight fixture runs on universal input from 100VAC-240VAC or 24VDC and needs only one amp (120VAC) to produce more lumens than a 750W tungsten soft light.

With new technology, the Celeb's cost savings from low energy and long lamp life continues Kino Flo's reputation as an environmentally friendly lighting company. The Celeb 201 comes complete with molded accessory holders, removable gel frame, focusing louver and is available in Center Mount, Yoke Mount and Pole-Op.

Features include:

- Kelvin presets & custom settings between 2700K-6500K
- Universal Input 100-240VAC or 24VDC
- Onboard and DMX dimming w/ Auto Terminate
- DMX wireless link (Lumen Radio)
- Flicker-free, dead quiet operation
- Gel Frame and Honeycomb Louver
- Center Mount, Yoke Mount and Pole-Op
