

ARTISTE SERIES

Artiste Mondrian

With many high-level features already built in, the Artiste series is a family with complete continuity of colours making them an ideal set of tools for operators and designers.

The Artiste Mondrian is a full-featured LED profile FX fixture offering high centre intensity, narrow-beam angles and is extremely bright. Providing up to 51,000 lumens, the Mondrian is a hot spot LED engine with a large 226mm front lens and powerful beam. Integrated with the new SpectraColour system Mondrian offers a traditional CMY mixing but adds a variable RGB colour mix for rich saturated primaries.

Exclusive to the Artiste Series, the Mondrian includes a full blackout framing system with 360° continuous index and rotation of shapes.
