KEY FEATURES

- ULTRA-HIGH TRANSPARENCY

The JP8 Pro stands out with an extraordinary 50% transparency rate, ideal for elevating large-scale outdoor concert visuals to new heights.

With a brightness of 5000nits, 16 bit grayscale, and a 7680Hz refresh rate, the JP8 Pro stands unmatched in display quality, captivating audiences with its strikingly vivid images and exceptional performance.

- LIGHTWEIGHT BUT DURABLE

The Jupiter Pro series is specifically designed for the touring stage where every second counts. The expansive panel dimensions are engineered to expedite stage setup. As the ultimate touring stage display, the JP Pro series delivers an unrivalled solution, ensuring performances aren't just seen, but spectacularly experienced.
