ALUVISION HI-LED 55

The next level in creative LED design - the Aluvision Hi-LED 55 range of products includes curve, edge, flat and floor LED panels at a 2.5mm pixel pitch. Every panel fits seamlessly into the Aluvision modular framework or can be used as a standalone creative display solution to achieve limitless creativity in exhibition, retail and conference environments.

From the highest resolution LED floor on the market to the 90-degree non-faceted curve, the Hi-LED 55 is bringing creative design to exhibition stands with sustainability, seamless design and a flush finish.
